ABOUT ME

I am a Spanish multimedia and game developer who loves to learn about new technologies within the game industry and apply them to my personal projects. Create games fascinates me because it allows me to bring to life my own worlds and let other people enjoy them. When I am not studying or working on my projects, I like to travel, do outdoor sports, or just relax playing video games.

EDUCATION

MULTIMEDIA ENGINEERING

2016 - PRESENT

UNIVERSITY OF ALICANTE

The aim of this Degree is to produce professionals in the ICT Sector who are capable of leading new projects in the world of Multimedia and Software Engineering. GPA 3.41.

SOFTWARE ENGINEERING EXCHANGE YEAR

2018 - 2019

ATHLONE INSTITUTE OF TECHNOLOGY

Completed an exchange academic year as a Software Engineering student at the Athlone Institute of Technology in Ireland (Erasmus+). GPA 3.77.

UNREAL ENGINE C++ DEVELOPER COURSE

2019 - 2020

UDEMY

In order to hone my skills as a game developer, I went into more advanced techniques; learning the best practices for C++ game development in UE4.

EXPERIENCE

GAME DEVELOPER

2018 - PRESENT

4FREAKSFICTION

Volunteer work as a game developer at this junior enterprise. Responsible for programming multiple mechanics and features for mobile and computer games.

UNREAL ENGINE GAME DEVELOPER

2019

BATTLE TANK

Created an open world head-to-head tank fight game with AI controlled enemies and advanced control system in Unreal Engine 4.

UNITY VR DEVELOPER

2017 - 2018

ROOM MAKER

Designed and developed a VR scenario editor in Unity, which allows the users to create their own indoor scenarios and explore them using VR technology.
